## Customer Reviews

I loved reading this book to my daughter. The recipes were pathetic, especially "Creamy Salsa Dip" 1 jar salsa is the first ingredient. I book highlighting the importance of growing your own vegetables should give a recipe for a simple salsa using ingredients that most small gardens would/should have. There are only a few recipes in the back, and the main point of the book is great.

First Garden is a wonderful taste of a very special garden. The book entertains as much as it informs. Not only about the importance of growing and eating fresh vegetables and fruits, it contains tidbits about some of our presidents and their gardens past and present. Because First Garden works so well on several levels, it makes as good a read for adults as it is for children. Ms Gourley's beautiful watercolor illustrations are also a delight for the eye. This book is an ideal gift for anyone age 3-103.

I really loved this book! It is not "dumbed down". It gets your creative juices flowing, encouraging readers of all ages to grow some food, tool around local gardens, develop some recipes, and just have some fun fueling our bodies.

A beautiful book! Any way to introduce gardening and healthy eating to children must please the Obamas. It pleases me!
