Starting Out With Visual Basic Plus MyProgrammingLab With Pearson EText -- Access Card Package (7th Edition)

Synopsis

NOTE: Before purchasing, check with your instructor to ensure you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, and registrations are not transferable. To register for and use Pearson's MyLab & Mastering products, you may also need a Course ID, which your instructor will provide. Used books, rentals, and purchases made outside of Pearson If purchasing or renting from companies other than Pearson, the access codes for Pearson's MyLab & Mastering products may not be included, may be incorrect, or may be previously redeemed. Check with the seller before completing your purchase. This package includes MyProgrammingLab. In Starting Out with Visual Basic, Tony Gaddis and Kip Irvine take a step-by-step approach, helping students understand the logic behind developing quality programs while introducing the Visual Basic language. Revised and fully updated throughout for Visual Basic 2015, the Seventh Edition is written in clear, easy-to-understand language, covering all the necessary introductory programming topics. Concise, practical, and real-world example programs not only help students learn to use the various controls, constructs, and features of Visual Basic, but also why and when to use them. The text is designed for students who have no prior programming background, but experienced students will also benefit from its depth of detail and the chapters covering databases, Web applications, and other advanced topics. Each chapter covers a major set of programming topics, introduces controls and GUI elements, and builds knowledge as the student progresses through the book. Personalize learning with MyProgrammingLab. MyProgrammingLab is an online learning system designed to engage students and improve results. MyProgrammingLab consists of a set of programming exercises correlated to the programming concepts in this book and improves the programming competence of beginning students who often struggle with the basic concepts of programming languages. For students, the system automatically detects errors in the logic and syntax of their code submissions and offers targeted hints that enable students to figure out what went wrong. For instructors, a comprehensive gradebook tracks correct and incorrect answers and stores the code inputted by students for review. 0134522184 / 9780134522180 Starting Out with Visual Basic Plus MyProgrammingLab with Pearson eText -- Access Card Package, 7/e Package consists of: 0134379438 / 9780134379432 MyProgrammingLab with Pearson eText -- Instant Access -- for Starting Out with Visual Basic, 7/e 0134522184 / 9780134522180 Starting Out with Visual Basic

Book Information

Paperback: 912 pages

Publisher: Pearson; 7 edition (April 1, 2016)

Language: English

ISBN-10: 0134522184

ISBN-13: 978-0134522180

Product Dimensions: 8.4 x 1.3 x 10.8 inches

Shipping Weight: 8.9 pounds (View shipping rates and policies)
