## Customer Reviews

My one year old LOVES this book! He gets so excited to read his football book. The pictures are all real and not cartoons, which i love as a teaching tool. The cartoons can sometimes be confusing for them.As a big football fan and mother of three sons, I say I must have at least one play pro football and this book helps me indoctrinate my most athletic one ;)For that, I thank you!

The four year old boy I bought this book for just loves it and asks for it to be read over and over. He knows a lot about football and some of the story and pictures relate to his favorite team. players and coaches whom he has met personally. A real hit for him.

I checked this out from the library on a whim and my son loves it. I am actually ordering for his first

birthday next week. When I start to read it he will stop what he is doing and crawl right to me. Be aware that this is a picture book with one word per page. There is no storyline. The pictures are actual pictures, not cartoon drawings, which is a huge plus for me. If you are unsure, do a "test drive" by checking out the book from your local library.

This book is well made, and our son loves it. The pictures are very clear and large, which are perfect for a baby.

Surperb choice of pictures and captions. My 2 1/2 year old grandson carries the book around everywhere.

This book was a hit with the toddler.....and surprisingly among the adults too...LOL.

Super cute while still teaching the basics! My little guy loves it!
