## Customer Reviews

I purchased this book for our 2 year old, thinking he would enjoy it in a year or so. To my surprise, he loves it now! Be prepared to read this book numerous times at each sitting, and to make enthusiastic machine sounds!

We had to purchase another copy because our 2 1/2 year old son has read and played with the first copy so much he has destroyed it. Yet it is still his favorite. It is a great book for little boys. The pictures are terrific. He now knows his construction equipment when we are out and about.

This is my son's all time favorite book, it goes everywhere with us! I do not need to see the text as I read, since I now know it by heart. My son loves the shape, and has been known to take a bite every once in a while. This is just a great book to read to your child, fun, easy to understand, and lots of things to point out on the way. There are other books we have about similar topics, but this is his favorite.

My son is only 2 years old but he loves trucks. This is the perfect book for your son or daughter if

they love trucks, too. The pictures are real-life and the text provides informative information about each type of truck, with the correct name(s). I would recommend this book to any caregiver who has a child who loves trucks and anything that digs and moves!

Very short and sweet, but my son loves this book! He has me read it daily, which I don't mind because it only takes a minute. It's also nice to learn the names of some of the trucks. This isn't for kids over 5, imo.

I've never been disappointed by the DK board books. Pictures are awesome with great subjects and perfect colors/printing. They are sturdy and stand up to abuse for your little one in a chewing stage so will last. I now stock 5-10 of these for presents to young kids.

My grandson carries this book around all the time. His granddad has a dump truck so he just calls this "Dump". If someone sits down he's ready to bring the book to them to read. I get excited that he likes books.

I bought this book and another in the Things That Go Board Books series for my grandsons, 1 & 3. They seem to love the photos & ignore the text. The book lives in their car & is the perfect size for one or the other to read while traveling. This book is perfect for kids who love construction vehicles!
