## Customer Reviews

I bought these for my almost kindergartener to 'grow into' as he learns to read. *The Day the Dinosaurs Died* was the hands down favorite --think historical fiction for dinosaur loving littles. The other two will work better when he is a more independent reader, I think. Very motivating books to promote early reading, lots of educational value in the content, too. Plus, a jumping off place for even more science (space, weather, ecosystems, reptiles vs mammals, even tsunamis).

great book, gives parents and kids pronunciation keys for the dino names, which is super helpful to mom. :-) for dino lovers, this set is a must have!

I have 2 boys, 8 & 5, they love these books.
