Customer Reviews

The young prince must search for what his father requests. He immediately finds a magical castle instead, and by trusting the White Cat he finds all he needs. In between there are some great adventures, fanciful and courageous. My daughter enjoys this book and we've read it many times.

The illustrations in this beautiful book are worth getting it for alone. But when you add to this an exciting and interesting story - one that I never tire of reading and my children never tire of hearing - this book is an all-around winner. I highly recommend this book as a mother and a teacher.

My parents bought me this book when I was about 9 years old at a book fair at school. They even got it signed by the Author. 13 years later, I am now 22 and still love this story. The Story of the White Cat comes to life as you read it. The artwork is drawn in such fine details that when I go to sleep at night I can still remember all that happens in my dreams. The White Cat herself is filled with magic and mystery that it makes one want to know more about her. If you enjoy reading about enchanted castles and Wise Cats in fantasy then this book is for you.

When I was a child I would borrow this book from my school's library at every chance I got. I was mesmerized by the illustrations and the story. I read it over and over again until I moved away. Always remembering the fantastical fairy tale, I searched for ten years for this book. When I finally

found it here on .com, I was thrilled! The book is in excellent condition. Every page is brilliant in quality and the story is as alive now as it was when it was written. It may say that the reading level is for ages 4-8, but it's enjoyable for people of every age. One of my favorite purchases to date.

Here was a fairy tale that I had never read before. Very much like other tales with youth meeting tests of determination and faith, freeing the beautiful cat princess from a magic spell and marrying her for happy ever after. But very well told and beautifully illustrated. You can't get much better than San Souci and Spirin.

This book could not be more beautifully illustrated. Spirin's art has a wispy, dreamlike delicacy combined with beautifully rendered detail. It looks truly magical. One two-page spread depicts a battle royal between armored cats and an armada of rats sailing in ostrich-egg shells -- it's almost too beautiful and fantastic to take in. The story itself is a lesser-known fairy tale, filled with heroism, romance, virtue, and wicked villains. My four-year-old fell in love with it immediately, and we have played many games of "white cat" in the last few weeks. The cat queen is lovely, brave, wise, strong -- and exquisitely dressed! What little girl wouldn't be enchanted? Boys will love the high adventure and excitement of the story, complete with wicked dwarfs and fire-breathing salamanders. In every respect, one of the finest fairy-tale picturebooks I've ever seen.

This story is an old friend. Better for older children (8-12). The tale of friendship, heroism, chivalry, and most important, patience with family members. Perfect match between narrator and illustrator -- five stars!

I searched far and wide for this book. Delighted to have it
