Puritan Papers, Vol. 1 (Puritan Papers)

Synopsis

J. I. Packer, D. Martyn Lloyd-Jones, Iain Murray, and Ernest Kevan are among the distinguished contributors to this compilation of papers on a wide range of topics pertaining to Puritan and Reformed teaching, piety, and life. This volume, the first in a series, captures the principles and passion of Puritan belief as presented in the Puritan and Reformed Studies Conferences of 1956-1959. The twenty-three papers gathered here are, by design, practical and constructive, not merely academic, says Packer, and therefore helpful to pastors as well as the whole church.

Customer Reviews

This is a masterful introduction to Puritan Life and Thought. Unashamed in their view of Election and God's Sovereignty, they then proceeded to live their life powerfully and fervently. Although this is not a work of a single thesis (it is divided into chapters on topics ranging from the Sabbath to Notable Puritans to Revival) it is an excellent and unashamed view of men "whom the world was not worthy." Its main theme is that the puritans were the strongest where the church today is the weakest. this si a definite read

I love this book - it's part of a 5 book series - so far i have 2. It's really good to get an overview on different topics that the Puritans wrote on and believed in ... highly recommended!

These are very good essays, and I will enjoy reading them very much. They have been on my long list for about ten years, and since I bought this series used, I saved a lot of money as well.
